CLOUDY BOSS

Presented by Jonathan Hera

cloudyBoss Group

*cB is a leading Industrial DLT Ecosystem Management provider*

cB Vision: a world articulating around safe, sustainable & thriving cities

cB mission: to foster g/localisation via industrial DLT

Industrial DLT

Industrial Distributed Ledger Technology

"*a need for* **independent** *parties to* **operate together** *under a safe, streamlined* **tamper-proof ecosystem**"

cB Products & Platforms

Programs

DT
Digitalization
Organisational
Transformation

Advancity

STARTOSPHERIC
PROPELLING STARTUPS TO STARDOM

Platforms

Next
Enterprise Distributed Ledger Technology

Autopilot

COBRA
cloudyBoss Omni-currency Banking Rotation Account

Technology

SKYE
Smarter Contracts | Faster Blockchain | Safer Ecosystems

Keystone

ANIMA
Artificial Intelligence with a Soul

Some examples of cB Client Projects

SLCHAIN

DLT-based value chain management

SECURELINK

DLT-based Cyber Threats Intelligence

DLT-based Circular Economics

뉴스포털1
한국시민기자협회
KOREA CIVIL REPORTER ASSOCIATION

DLT-based information integrity
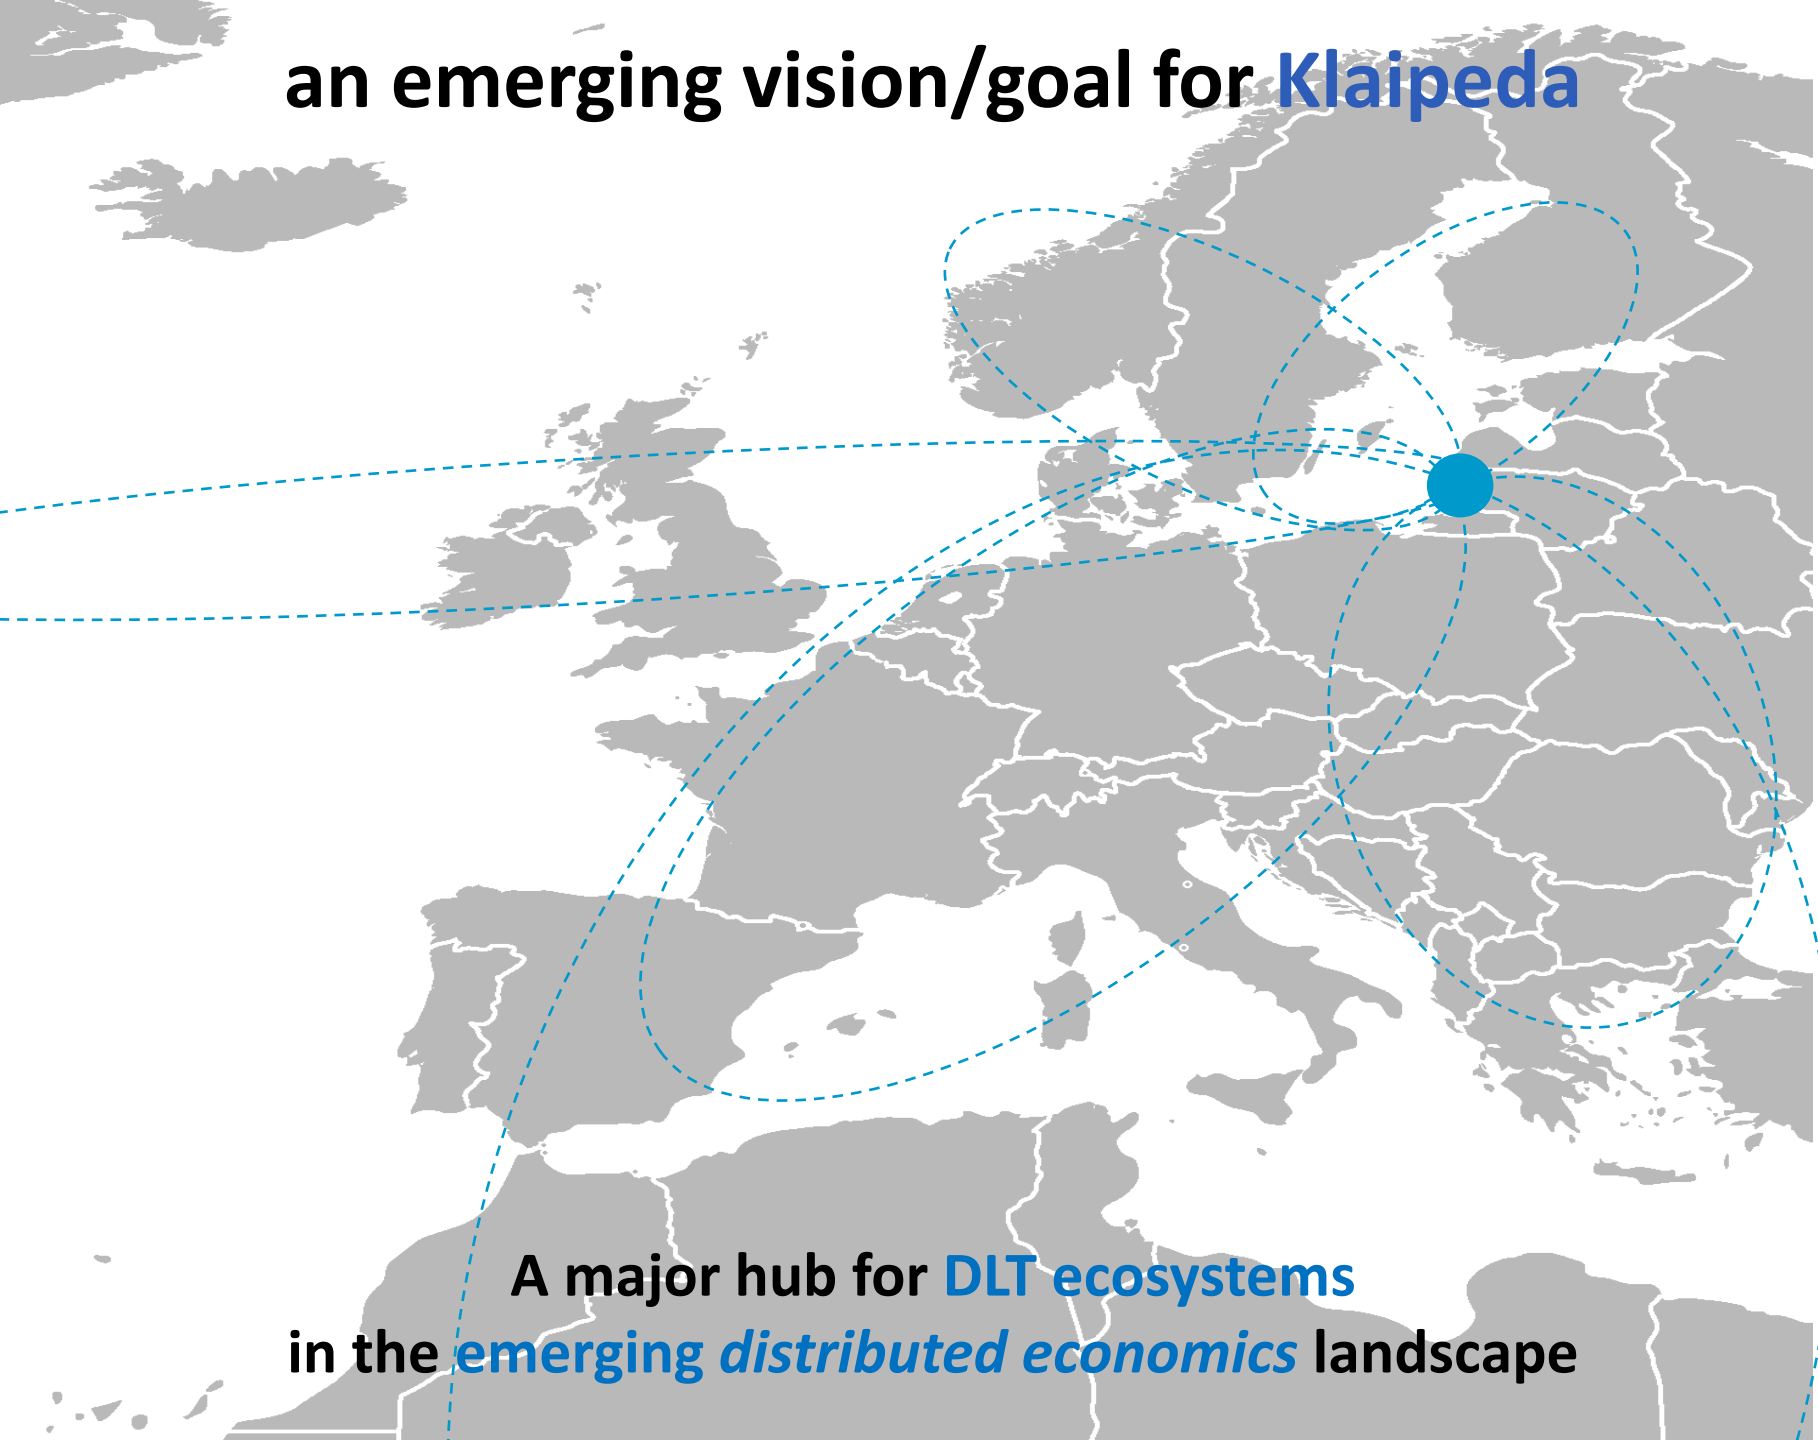

DLT-based secure drones & IoTs

Moaah

AI-based maritime data security

Our *Values*

an emerging vision/goal for **Klaipeda**

A major hub for DLT ecosystems
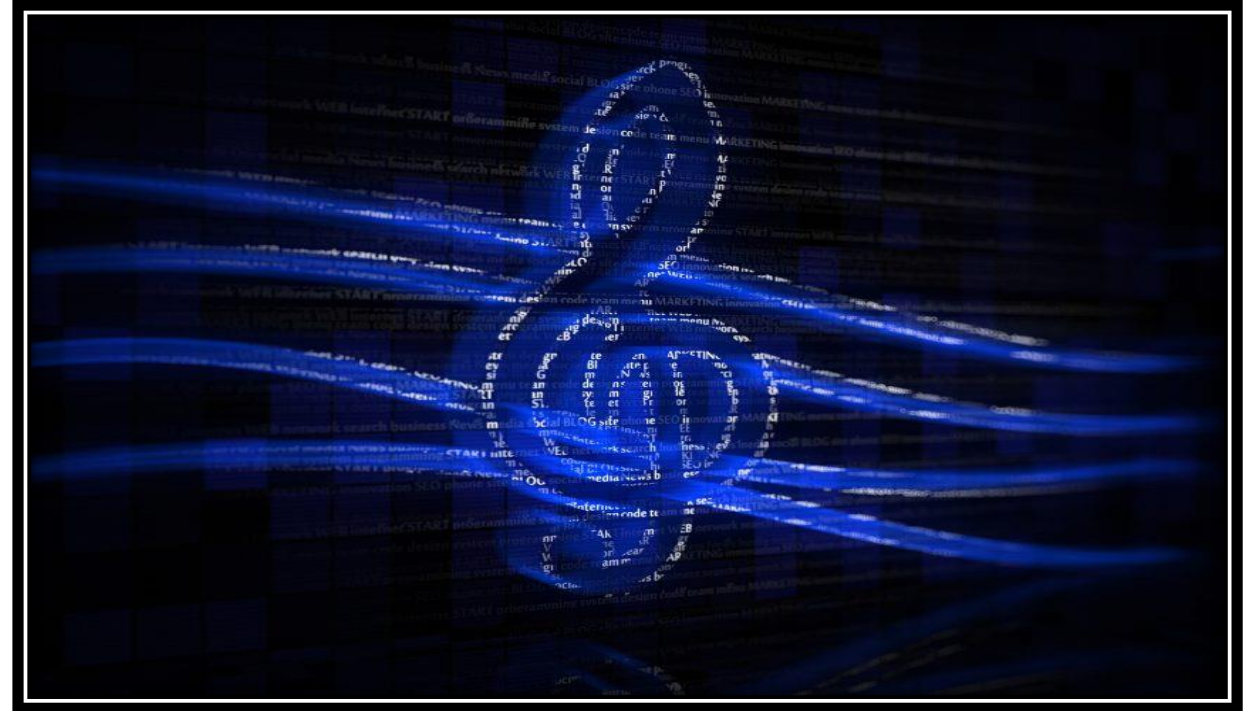

in the **emerging** *distributed economics* landscape

3+1

KLAIPEDA

cB APEASE

Tokenised Code

- **Write it, Own it** → Turn your code to NFTs

- **Work From Anywhere**, at your own pace

- Build with clients, peers or on your own

- **Earn royalties, projects fees & perks**

- Trade your NFT rights or stock/options

*From day 1, you are in the driver's seat!*

cB GRIP

Global Remote Internship Program

- **GRIP** is for students **anywhere**, who are engaged in **software engineering** and/or **business disciplines**.

- Students have an opportunity to gain a cBx70, 80 or 90 certification

- The **Ultimate** goal with GRIP is to convert internships into successful APEASE partnerships.

- Software Engineering trainees **own their code** from the start of their internship.

- **cloudyBoss** runs **2 GRIP programs per year**, from January to June, and from July to December

cB GRIP

Internship Journey

- ## Phase 1 | pre-qualification

  Duration: 1 month (self-learning)
  Pre-req: OOP, Web/Mobile Tech, PHP, Python, TF, advanced SQL (>6NF)

- ## Phase 2 | internship project

  Duration: TBC prior Phase 1 end, typically 4 to 6 months
  Pre-req: successful phase 1 pre-qualification & confirmed project terms

- ## Post | internship

  Immediate opportunity to partner with cB group under APEASE
  APEASE back-dated to the internship start date & code ownership

Thank You!
