

EU-CONEXUS Research for Society (RFS)

EU-CONEXUS: European University for Smart Urban Coastal Sustainability

One of the 17 first 'Universities of the Future'

It is a transnational European higher education and research institution that covers the smart urban sustainable coastal development from a global point of view.

The EU-CONEXUS teaching, research and innovation programmes include the totality of social, economic, and environmental problems and opportunities that coastlines are facing today.

EU-CONEXUS RESEARCH FOR SOCIETY

Towards Building The Future European University Alliance

Aims at a institutional transformation in all partner universities for creating a multidisciplinary, challenge-driven, internationally competitive research and innovation structure, relying on researchers who follows a career path, and who is open to qualitative new, participatory and innovative partnerships with industries and the civil society.

Expectations

1. Interconnection of transformations will **complete already engaged long-term vision for the European University.**

2. Facilitating researchers' mobility and access to multiple work environments will bring a **new profile of European researchers to have more attitude on environmental issues.**

3. Enabling public and intra-alliance access to information **will increase exchanges, enable cooperation and co-creation, build inter-partner projects.**

4. Sharing resources will bring **lower costs, offer the opportunity to reach the ecological impact** of multiple purchases and investments in new resources.

5. Training and exchanges with actors of the social and economic innovation system will enable to **reduce challenges that coastal areas and cities are facing.**

6. Understanding the specific challenges **each university will harmonise practices and working conditions, making them fairer, more sustainable and more environmentally friendly.**

A Hub of Excellence in Smart Urban Coastal Sustainability

5,650 ACADEMIC STAFF

65 RESEARCH INSTITUTES

98 RESEARCH GROUPS

— La Rochelle Université,
France

A human-sized university
specialising in Smart Urban
Coastal Sustainability issues.

— Catholic University of
Valencia, Spain

Professional and personal growth
of students, staff and society.

— University of Zadar,
Croatia

A space of creativity and transfer of
new knowledge and technologies.

— South East
Technological University

Education-focussed collaborative,
inclusive, ethical and innovative community

— Technical University
of Civil Engineering of
Bucharest, Romania

We build education in engineering
since 1818 in Romania.

— Agricultural University
of Athens, Greece

Provides a high level of Education
and Research since 1920.

— Klaipeda University,
Lithuania

A national and Baltic Region leader
in the field of marine sciences.

Innovation agenda

Developing Joint Science

BY SHARING RESOURCES AND INFRASTRUCTURES

- A Joint Research Area in:
 - Life Sciences and Biotechnology
 - Environmental Sciences and Biodiversity
 - Coastal Engineering
 - Social Sciences, Culture and Human Sciences
- Development of joint research projects
- Wider training opportunities
- Access to 9 times more research infrastructures
- Reduce ecological impact, be more sustainable

Gender Equality & non-discrimination

PROMOTING EQUAL CAREER OPPORTUNITIES

- Comparing women/men working conditions for promoting equalitarian careers
- Developing a knowledge transfer and innovation management system for representing both genders equally
- Bringing a specific focus of an innovative mentorship programme
- Promoting gendered innovations
- Ensuring non-discrimination culture

Science & Business Cooperation

INDUSTRY ENGAGEMENT IN RESEARCH

- Engaging innovation ecosystem
- Expertise services to stakeholders
- Science commercialisation
- Knowledge transfer
- Innovation hub:
advertising innovative solutions

Open Science

OPENING SCIENCE FOR SOCIETY

- Increasing citizenship involvement
- Developing practices for society inclusiveness
- Increasing society's knowledge on research results
- Enabling co-creation, co-development and reuse of knowledge and making it more reliable, effective and reasonable
- Creating an EU-CONEXUS Open Science platform

Innovative and Socially Responsible Management

CONTROL & RELY ON SUSTAINABLE RESEARCH COOPERATION

- Innovative practices in strategic development
- Socially responsible financial and administrative coordination
- Harmonized quality assurance and monitoring
- Coherence within European Research Area

EU-CONEXUS RFS FOR

Governance Structure

GOVERNING BOARD (GB)

Take strategic decisions for both projects; composed of Rectors/Presidents of each university.

RESEARCH COUNCIL (RC)

Takes over the responsibilities of the Joint Research Steering Committee (Erasmus+) and supervises the RFS actions and the Erasmus+ WP4 actions, activities of WGs of both projects composed by Vice-rectors for Research.

ACADEMIC COUNCIL (AC)

Makes proposals on academic offers (also in relations with Research activities PhD to the GB is responsible for Erasmus+ WP2 actions; composed by Vice-rectors in Academic Affairs.

RFS- MANAGEMENT BOARD (MB)

For operational actions of both projects, composed by ED and representatives from all partner universities.
