

## Open call for Project Development Fund

### EU-CONEXUS AMBITION

The European University for Smart Urban Coastal Sustainability (EU-CONEXUS) is a transnational European higher education and research alliance addressing global and local challenges by tackling coastal environmental, technical, economic and societal needs. EU-CONEXUS is a fully-fledged university. It offers education, training, study programmes, performs research and links with socio-economic actors for supporting innovation.

To find more information, please visit the [EU-CONEXUS Website](#).

EU-CONEXUS Community brings together researchers, teachers and students from the different partner institutions and aims to increase and support the implementation of joint projects between them in the framework of funded collaborative projects by creating a **Project Development Fund**.

### OBJECTIVES OF THE PROJECT DEVELOPMENT FUND

Research & academic teams from EU-CONEXUS partner universities can apply for funding through the **Project Development Fund** in order to **develop collaborative education, research and innovation projects** to be submitted in response to calls for proposals under European programmes that do not exclude the participation of any partner university (for instance, Horizon Europe or Erasmus + programmes).

The project development fund will support the development of these proposals (hereinafter Proposals) and increase the participation of EU-CONEXUS Plus partners in **education, research and innovation calls for proposals** (hereinafter Project proposals) by giving the opportunity to enhance the quality of the proposals **through consultancy support exclusively**.

## ELIGIBILITY CRITERIA

- ✓ At least 3 researchers or academics from 3 different EU-CONEXUS Plus full partner universities must be involved in the project proposal (other organisations cannot be part of this core group).
- ✓ The project leader does not necessarily have to be a EU-CONEXUS partner university.
- ✓ The identification of the European call for proposals and a draft project proposal summary are required.
- ✓ The call must be relevant for the EU-CONEXUS thematic framework of SmUCS (Smart Urban Coastal Sustainability).
- ✓ The project proposal must be submitted to the identified call for proposals. Reimbursement of funds will be asked to the project leader host institution if the proposal is not submitted.
- ✓ Only one application per call can be accepted.
- ✓ The proposals have to be presented to the supervising administrative structures of the project teams of each partner university involved and receive their respective seal of approval. Reimbursement of funds will be asked to the project leader if the proposal is not approved.

## EVALUATION CRITERIA

The proposal will be assessed with regards to 3 main criteria:

- ✓ Adequation between project objectives and the call
- ✓ Relevance with regards to EU-CONEXUS, as a European University Alliance
- ✓ Relevance with regards to SmUCS topics
- ✓ Proposals involving more partner universities will be prioritised.

## FUNDING CRITERIA

- ✓ Eligible costs are **strictly related to getting the support from a consultant company to enhance the “scientific/specific” quality of the Proposal**. This expertise should be of a real added-value with regards to the expertise provided by the Project Development Support Office\*. In order to guarantee procurement principles 3 quotations from 3 different consultant companies must be provided at the application stage. Explanation demonstrating the chosen quotation must be given.
- ✓ The funding is **maximum €3500 per proposal (including VAT)**. A larger amount may be allowed if justified (budget availability or project strategic relevance for EU-CONEXUS Plus). Budget is foreseen for covering 8 projects.
- ✓ Co-funding is allowed whether it comes from the partners' own funds or from public or private funds.
- ✓ The funding of each proposal i.e., the payment of the consultant company is taken in charge directly by EU-CONEXUS.

## APPLICATION

- ✓ The project leader has to send the **completed application form** (Annex 1) to the EU-CONEXUS Project Development Support Office at the following email address: [projects@eu-conexus.eu](mailto:projects@eu-conexus.eu)
- ✓ Applications to the Project Development Fund can be submitted continuously. European project proposals must be submitted to the identified European call before until **October 31st, 2026** or until the funds are exhausted

## SELECTION RULES

- ✓ A two-step-evaluation will take place:
  - The first step evaluation will assess the conformity to the call and technical eligibility by the Project Development Support Office that will prepare a recommendation for funding.
  - Then, applications will be validated by Research or Academic Councils' members during their regular meetings.
- ✓ Response will be provided to project leader by the Project Development Support Office in a maximum of one month.
- ✓ A copy of the submitted project proposal will be sent to the Project Development Support Office.

\*The Project Development Support Office established in the framework of EU-CONEXUS Plus is in charge of managing the Project Development Fund. For any question you can contact the team of project officers at the following address: [projects@eu-conexus.eu](mailto:projects@eu-conexus.eu).

The Project Development Support Office missions are to:

- 1) Manage the Seed Funding & Project Development Fund,
- 2) Provide support to projects' holders for preparation and submission of projects in response to external calls for proposals (this includes: advice on relevant calls, advice on project structuration, support for finding partners, administrative support, budget preparation, proof-reading, support for project submission...).
