Universität Rostock — Traditio et Innovatio

Welcome

The Hanseatic city of Rostock, founded in the 13th century is the largest city in the German state of Mecklenburg-Vorpommern (MV) with approximately 209.000 residents. It sprawls along both sides of the river Warnow including its large international port on the Baltic Sea.

Rostock has many historic points of interest – the monumental Marien Church with its valuable art treasures, the Holy Cross Monastery near the University's main building, founded in 1419 and the reconstructed 117m high steeple of the Petri Church.

Warnemünde, a seaside resorts on the Baltic coast, is an attractive part of Rostock and worth a visit for a stroll or a day on the beach. The "Alte Strom", the Westmole and the Marine Promenade with its lighthouse attract many tourists.
