# Framework and Methodology

## Deliverable D8.2

## FINAL VERSION

## WP8 Research Networking and Mobility

Contractual due date: 31 October 2026

Final delivery date*:* 5 June 2026

WP leader: University of Rostock

Contributors: *LRUniv, AUA, UCV, KU, UNIZD, UTCB, SETU, UROS, FredU, EU-CONEXA*

Dissemination level: confidential

## Executive Summary

This deliverable defines the framework and methodology for the implementation, coordination, and monitoring of WP8 mobility actions within the EU-CONEXUS Alliance. It outlines the governance structure, roles of key stakeholders, and interaction mechanisms ensuring transparent, fair, and efficient management of mobility schemes. The methodology combines central coordination by the University of Rostock with decentralized implementation at partner universities, supported by annual mobility calls and a structured communication strategy.

Clear eligibility, selection, and evaluation criteria (validated by the Research Council) are applied to all mobility WP tasks (T8.1, T8.2, and T8.3), while allowing flexibility to reflect institutional contexts. Monitoring is ensured through shared documentation tools, review panels, and compulsory after-mobility surveys, complemented by follow-up assessments to capture qualitative and long-term impacts. These include new collaborations, joint publications, educational activities, and further funding initiatives.

Constraints such as avoiding research per se activities and strengthening interdisciplinarity are explicitly addressed. For M24 to M48, mediation actions focus on in-depth KPI analysis and improved visibility of mobility outcomes, ensuring alignment with Smart Urban Coastal Sustainability (SmUCS) priorities and maximizing the impact of WP8 actions.

## Description

### 1. The structure and contributors

WP8 consists of three tasks, each focusing on specific mobility category: T8.1 Launch of a call for research staff mobility (mobility within Alliance), T8.2 Invitation of external guest researchers (incoming to Alliance) and T8.3 Enhancing participation in conferences on SmUCS topics (outgoing from Alliance).

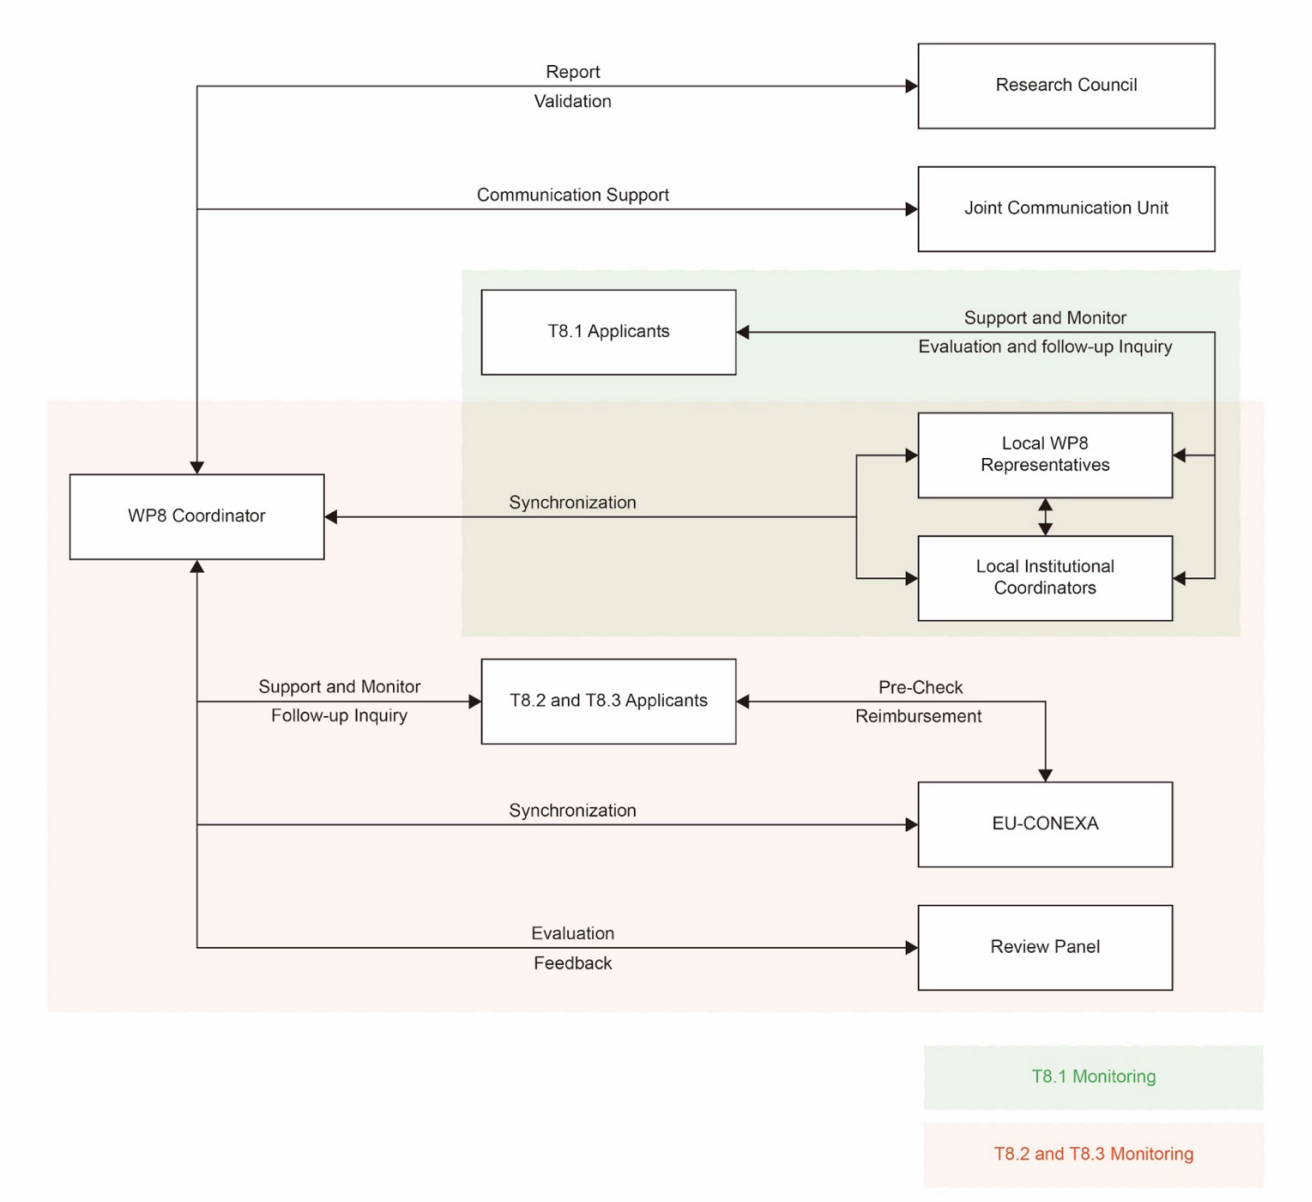

**Figure 1.** The contributors in the WP8 mobility application, evaluation and monitoring

As shown in the Figure 1, the **University of Rostock** acts as the lead coordinator for WP8, ensuring smooth collaboration with all relevant stakeholders in following ways:

- With **research council**:
  - Submits annual mobility call drafts, revised calls, and mid-term WP reports for validation
  - Receives and integrates feedback into updated calls and reports.
- With **local WP8 representatives**:
  - Engage in continuous communication to draft calls, implement tasks, and ensure progress alignment.
  - Provide joint applicant support at all stages of the process.
  - Distribute after-mobility questionnaires and conduct follow-up inquiries to assess the impact of completed T8.1 mobilities.
- With **local institutional coordinators**:
  - Regular communication together with local WP8 representatives to effectively implement university level actions.
  - Provide regular updates on the application process.
  - Synchronize reporting of outcomes and impacts of finished mobilities.
- With **review panel**:
  - Regular communication to evaluate applications, summarize approved mobilities, and propose revisions to eligibility or selection criteria.
  - Review panel consists of at least one researcher from each partner university.
- With **EU-CONEXA**:
  - Collaborates closely with institutional coordinators and representatives in the support of T8.2 and T8.3 applicants.
  - Supports financial pre-checks and reimbursements.
  - Jointly communicates with selected applicants regarding travel rules and reimbursement procedures.

- EU-CONEXA is a Belgian non-profit association managing common funds for the partner institutions, responsible for the communication selected applicants regarding travel rules and refund

- With **Joint Communication Unit (JCU)**:
  - Regular communication regarding dissemination of mobility call, announcement of incoming visits and showcase of outstanding mobilities, and update of the communication strategy.

## 2. Methodology

*Communication*

The annual mobility call is launched in February and is valid until end of January of next year. The launch is announced by JCU on webpages and social media channels with brief description of each mobility category. Application webpage is created by JCU for each mobility category, offering detailed information regarding background, eligibility, selection process, reimbursement and after mobility request. One month before the quarterly evaluation deadline, JCU will promote the mobility call on the social media channels in a form of reminder visuals. Local WP8 representatives and Institutional coordinators are responsible to disseminate the mobility call regularly to researchers and PhD students. WP8 leading coordinator and local WP8 representatives as contact persons provide guidance and assistance to applicants jointly.

The University of Rostock as leading coordinator quarterly organizes WP8 meeting with the participation of WP8 local representatives to draft mobility calls, report the task progress, and discuss the mitigation methods. The leading coordinator also have at least one bilateral meeting with each local WP8 representatives to learn the best practice, clarify the obstacles and collect feedback. The leading coordinator communicates with JCU closely to plan the annual communication strategy.

*Evaluation and Monitoring*

T8.1 Launch of a call for research staff mobility

Local WP8 representatives and institutional coordinators directly and internally manage, coordinate and evaluate the T8.1 applications. Clear eligibility and recommended selection criteria of T8.1 were described in the validated mobility call. **Annex 1** provides detailed description for selection process and criteria at each partner university. Each partner university evaluate and select T8.1 applications after its own preferred deadline. T8.1 application documents were archived at each home university and updated in the shared table on WP8 Whaller sphere (link). Selected T8.1 mobilities were documented and described in **Annex 2** (also accessible on Whaller via this link). This table is the tool to track and monitor the supported mobilities. Once the mobility is completed, applicants will be asked to fill an after-mobility survey (shown in **Annex 3**, also accessible via this link). After-mobility survey is used as a tool to quantify the impact of the mobility in a form of questionnaires regarding the completion, outcome and benefit of the mobility, e.g. if the mobility led to development of further collaboration or any slides. WP8 coordinator will conduct follow-up inquiry with the help of local WP8 representatives to check if any outcomes from the mobility can be shared within the alliance and if the mobility led to subsequent collaboration between the two partner universities.

T8.2 Invitation of external guest researchers and T8.3 Enhancing participation in conferences on SmUCS topics

Given the high level of similarity in the coordination and management of T8.2 and T8.3 (, these two actions are addressed within a single, unified description. University of Rostock as leading university closely work with EU-CONEXA and WP8 review panel to coordinate, evaluate and support the T8.2 and T8.3 applications. Clear eligibility and selection criteria for T8.2 and T8.3 is described in **Annex 4 and Annex 5**. Review panel jointly evaluate the applications quarterly after the announced application deadlines. The evaluation takes normally two weeks. Selection results were informed to the review panel, institutional

coordinators, local WP8 representatives, EU-CONEXA and the applicants. Detailed evaluation scores are also archived locally and uploaded on WP8 Whaller sphere. EU-CONEXA will communicate with the selected applications regarding travel rules and reimbursement process. WP8 leading coordinator is responsible to track and monitor the selected mobilities with the assistance from EU-CONEXA. Once the mobility is completed, applicants will be asked to fill an after-mobility survey (as shown in **Annex 6** and **Annex 7**, also accessible here and here). Guest supported by T8.2 will be asked to stream the lectures if it is technically feasible. Otherwise, the guest will be asked to share their slides within the Alliance through an EU-CONEXUS official webpage. Participants supported by T8.3 will be asked to share their gained expertise and knowledge within the Alliance in a form of JRI seminars (see WP9). Other forms in other WPs are also possible, e.g. minor courses (WP2), PhD courses (see WP4), Open Lab Hour and Student Research Hub (see WP7). WP8 leading coordinator works together with JCU to prepare an annual summary of the outstanding mobility examples as a showcase of mobility call to increase its visibility.

### 3. Mediation Actions in M24-M48

**-** Avoid research per se activities in all tasks

- Include In-depth core KPI analysis of
    1. Extend of interdisciplinary
    2. Proportion of early-career researchers and female researchers
    3. Outcomes after mobility (joint publications, EU-CONEXUS course, funding application...)
    4. Publish of official webpage to visualize the finished mobility and their impacts

## Annex 1 Selection process and criteria at each partner university

The general application eligibility and selection criteria is described in the T8.1 mobility call.

### General Eligibility

- WHO: Researchers, PhD students and research administrators from the EU-CONEXUS Alliance.
- WHAT: Host lectures or trainings, conduct visit, participate conferences or summer schools at EU-CONEXUS universities.
- Duration: Between 3 and 10 working days (except transfer days). In some dedicated cases (e.g., finalizing a PhD thesis) longer stays are possible.

Mobilities in this call should be realized until 31 July 2026.

Participants who have been selected for a presentation/poster at the EU-CONEXUS Research Conference do not need to submit an application for this mobility.

### Selection Process

The applications will be evaluated based on clear criteria by each university internally. Please refer to the EU-CONEXUS Mobility Office at your university for the individual evaluation dates. The selection is based on criteria guaranteeing a fair evaluation of the applications and does not give priority to any applicant depending on his/her nationality, race, religion or gender. The following criteria will be considered for the selection of the mobility activities:

1. Overall objectives and expected results (max. 5 points)
2. Benefits for the researcher’s career (max. 3 points)
3. Partnerships, collaborative efforts and benefits for the Alliance (max. 5 points)
4. Synergies, complementing and sharing available resources/infrastructure (max. 3 points)

In case of equal points, priority will be given to young researchers and/or to less represented research areas or genders. In case of any objection at any stage of the application and selection process, the applicant may file his/her appeal to the Coordination Committee.

**Process at Each Partner University**

UCV

The funding of T8.1 at UCV is mainly intended to support academic staff participation in EU-CONEXUS conferences. No specific calls have been launched for this activity. Participation is promoted, and interest exists but remains limited. When demand exceeds expectations, all interested participants were funded, using EU-CONEXUS Plus and other funding sources. If a method is needed, selection follows a first come, first served principle. There is no formal application or selection criteria for EU-CONEXUS conference mobilities, as the scientific committee established by WP9 will evaluate the abstracts. Nevertheless, goals, benefits, and expectations are communicated to potential participants.

UNiZD

At UNiZD, applications are received and jointly evaluated by the local WP8 coordinator, the International Relations Office coordinator, and the local EU-CONEXUS administrator. The applications for internal funding are not numerous. The evaluation focuses on how such mobility contributes to knowledge transfer to the home institution, i.e., to consider the extent to which mobility contributes to the development strategy of the University of Zadar and to the dissemination of knowledge gained through such exchanges. Detailed mobility plan, with particular emphasis on the teaching component is requested. The selection process depends on the number of applications received and doesn't follow a fixed timeframe for evaluations.

KU

KU sends teachers and researchers (all researchers, including PhD students, are part-time teachers) to EU-CONEXUS conferences. Participation is open to all whose attendance is

approved by the hosting university or WP9 scientific committee. Funding comes from a mix of KU institutional budget and project budget. Local mobility applications selection is carried out by the Vice Rector for Research and Innovation, Vice Rector for Studies, and the Institutional Coordinator, who has the expertise to evaluate applications. Priority is given to ensuring diversity of scientific fields among participants and PhD students are more motivated to present. Selection takes place once per year, ahead of the EU-CONEXUS conference, to maximize networking within the Alliance. Additional support for other EU-CONEXUS partner conferences can be discussed case by case, using other KU funds (e.g. KU Future Fund).

SETU

At SETU, apart from the mobilities to the EU-CONEXUS conference, each application is evaluated by two researchers, with the process facilitated by the Institutional Coordinator. SETU applies the same criteria recommended by the WP8.1. The selection process is rolling, typically conducted monthly as applications are submitted.

UROS

At UROS, the mobility call of T8.1 is regularly disseminated on different channels, with focusing on PhD students and young researcher. EU-CONEXUS research conferences contribute to the majority of this mobility category. Mobility applications are jointly evaluated by the WP8 coordinator, the institutional coordinator, and the EU-CONEXUS leader, with referring to the same criteria recommended by the WP8.1. The selection of the applications takes place on a regular basis every three months.

LRUniv

At LRUniv, the scientific coordinator and the head of the international relations department are responsible for evaluating applications. Based on the criteria recommended by the WP8.1, the local team also takes great care to ensure that the subject matter is consistent with

SmUCS. Apart from the mobilities to the EU-CONEXUS research conferences, mobility applications to other partner universities are rather few and are evaluated carefully case by case.

UTCB

At UTCB all the researchers that have applied for Research Mobility to an EU-CONEXUS Conference or partner were accepted. The deadline was similar with the ones for the other mobilities or the conference, and internally the institutional coordinator, vice-rector for research and WP8 representative evaluated the applications and approved it.

FredU

At FredU, all applications are gathered through public calls that are disseminated to the community. The applications per call, are collected by the Institutional coordinator who in turn facilitates a meeting with FredU's Erasmus Committee to evaluate them as per the criteria and deadlines set by EU-CONEXUS (WP8). Selected participants are informed by the institutional coordinator that advises on the requirements and monitors proper implementation of mobilities.

Regarding participation in the EU-CONEXUS Scientific Conferences, as the selection of abstracts is done by the Scientific Committee of each conference, the selected papers/participations are funded -if applicable- through those calls.

AUA

At AUA, regarding the EU-CONEXUS Conferences, priority was mainly given to covering the expenses of students, as well as researchers who delivered presentations at the conference (with particular emphasis on oral presentations) and were unable to fund their travel through other programs. Mobility applications to other EU-CONEXUS partner institutions will be evaluated by the Head of Life Sciences and Biotechnology Institute (LSBI) and Research Manager of LSBI at AUA.

**Annex 2 T8.1 Research mobility within Alliance from M1 to M24**

| No. | Sending University | Hosting University | Declared Goal of the mobility | Date |
|---|---|---|---|---|
| 1 | UROS | LRUniv | To deepen the research regarding the background, previous and expected future developments, as well as resistance with regard to joint audits in France | 18/11/2023 - 26/11/2023 |
| 2 | UTCB | FREDu | To provide a structure for collaboration with regard to algae's management and their conversion into high efficiency useful energy with minimal greenhouse gas emissions. | 3 days Nov - Dec |
| 3 | FredU | AUA | Establishment of common research infrastructure and resources, collaboration in research projects and PhD Supervisions | 27/09/2023 - 30/09/2023 |
| 4 | LRUniv | UNIZD | Attend as Scientific Committee member the 11th ANATOMY OF ISLANDS symposium co-organized by University of Zadar and strengthen existing research collaboration links with UNIZD. | 27/09-2023 - 01/10/2023 |
| 5 | LRUniv | UNIZD | Give a presentation at the 11th ANATOMY OF ISLANDS symposium co-organized by University of Zadar and strengthen research collaboration links with UNIZD | 27/09-2023 - 01/10/2023 |
| 6 | UNIZD | KU | To attend a Conference: The Interaction of Tradition and Modernity | 14/11/2023 - 19/11/2023 |
| 7 | UTCB | FredU | To create a structure for collaboration with FreDu regarding the algaes management and their conversion into high efficiency energy with minimal greenhouse gas emission. | 14/01/2024 - 17/01/2024 |
| 8 | UTCB | SETU | To attend with an oral presentation to the SETU Environ 2024 Conference “Harbour to Harvest: Research from Soil to Sea” | 24/03/2024 - 28/03/2024 |
| 9 | UTCB | SETU | To attend with an oral presentation to the SETU Environ 2024 Conference The theme of Environ 2024 is “Harbour to Harvest: Research from Soil to Sea” | 24/03/2024 - 28/03/2024 |
| 10 | SETU | UNIZD | Organized encounter between scholars from UNiZD and SETU to discuss and develop maritime pilgrimage as a practical sustainability action with strong historic foundations. | 02/05/2024 - 05/05/2024 |
| 11 | UROS | LRUniv | Research visit of LRUniv to continue the research regarding joint audits in France | 02/05/2024 - 05/05/2024 |
| 12 | UROS | LRUniv | To attend the conference "Resilience to climate change and the European Union" with own contribution | 11/04/2024 - 14/04/2024 |
| 13 | UROS | LRUniv | Research visit of the Right & Management lab (LITHORAL) team at LRUniv and participate in the colloque annual de l’association politiques et management publics (apmp) | 28/05/2024 - 07/06/2024 |

# Annex 3 After-mobility survey of the T8.1 Research mobility within the Alliance

## Questionnaire for Research Mobility within EU-CONEXUS in 2025

We'd love to feature your experience in our communication activities. By submitting your information, you agree to let us use it for that purpose. If you have any great mobility-related photos, feel free to send them to eu-conexus@uni-rostock.de.

When you submit this form, it will not automatically collect your details like name and email address unless you provide it yourself.

* Required

1. **Your name and surname** *

   Enter your answer

2. **Your university / Institution** *

   Select your answer

3. **Host university / Institution** *

   Select your answer

4. **Type of mobility (allow multiple selection)** *

   - [ ] Research visit
   - [ ] Conference / workshops
   - [ ] Training course
   - [ ] Other

5. **If you participated in conferences, workshops or training courses, please indicate their names / topics here.**

   Enter your answer

6. **If you participated in conferences or workshops, could you please give the number of participants?**

   - ◯ Up to 50
   - ◯ Up to 100
   - ◯ Up to 200
   - ◯ Up to 300
   - ◯ Other

7. **Please briefly describe the main activities carried out during your mobility.** *

   Enter your answer

8. **To what extent would you rate the achievement of your mobility objectives?** *

1 2 3 4 5 6 7 8 9 10

9. **Please indicate which results you have achieved after your mobility (allow multiple selection).** *

- [ ] Joint publications
- [ ] Shared research resources and facilities
- [ ] Collaborative research
- [ ] Expanded network and connections
- [ ] Access to funding and grant collaboration
- [ ] Skill development and knowledge transfer
- [ ] Cultural exchange
- [ ] New insights
- [ ] Other

10. **If the visit leads to the initiation of a specific cooperation, could you please identify its topic and members?**

Enter your answer

11. **What is the likelihood of your continued collaboration with the host institution in the mid to long term?** *

1 2 3 4 5 6 7 8 9 10

12. **Please describe how the EU-CONEXUS mobility has been of benefit to you and your university (or organization).**

Enter your answer

13. **Can your collaboration also be spread to other areas of research (e.g. multidisciplinary and interdisciplinary projects)? If yes, please indicate the possible research areas.** *

Enter your answer

14. Please rate your overall satisfaction with the mobility program. *

☆ ☆ ☆ ☆ ☆

15. What suggestions do you have for enhancing the effectiveness of future mobility programs?

Enter your answer

**Annex 4 Eligibility and selection criteria for T8.2 Invitation of External Experts**

## 1. Eligibility

Who: The host university shall submit the application.

Eligible Experts: Researchers/experts from institutions (universities, research institutes and companies) outside of the EU-CONEXUS Alliance.

What: Key lectures or keynote speeches delivered at conferences organized by the EU-CONEXUS Alliance. Activities must include training or teaching with educational components or be related to research-based learning at EU-CONEXUS universities.

Duration: Between 3 and 10 working days (excluding transfer days). Duration can be less than 3 days for EU-COENXUS conference

Mobilities in this call should be realised by 18 September 2026.

## 2. Evaluation and Selection Criteria

A Review Panel consisting of representatives from partner universities jointly evaluate the applications based on the clear criteria. The list of selected external experts will be presented to the Research Council. The selection is based on criteria guaranteeing a fair evaluation of the applications and does not give priority to any applicant depending on his/her nationality, race, religion or gender.

The evaluation will take place on a regular basis, every three months (1 February, 1 April and 1 June 2026). The following criteria will be considered for the selection of the mobility:

- Relevance to SmUCS Topics
- Quality of Planned Activities and Expected Impact
- Collaboration and Long-Term Value for EU-CONEXUS
- Knowledge Sharing and Dissemination

A full description of the selection criteria has been validated by the research council and can be found here.

### 3. Minimum Score and Automatic Rejection

Applications with a final score below 12 will be automatically rejected.

If more than half of the review panel members recommend rejection, the application will also be automatically rejected.

### 4. Repeat Applicants

Experts who have already received EU-CONEXUS mobility funding before 12 months remain eligible to be invited. However, in cases of equally ranked applications or limited funding, preference will be given to experts who have not yet visited the Alliance.

### 5. Tie-breaking Rule

In the applications of equal total scores, priority will be given to:

Experts who haven't received the funding before,

Experts from underrepresented research areas within EU-CONEXUS thematic priorities,

Experts of underrepresented gender identities in the respective field.

### 6. Appeals Procedure

If an applicant wishes to contest the outcome of the selection process, they may file a written appeal to the EU-CONEXUS Alliance Coordination Team within 5 working days of receiving the decision. The Committee will review the case and provide a final, reasoned decision within 15 working days.

**Annex 5 Eligibility and selection criteria for T8.3 Participation in International Conferences on Smart Urban Coastal Sustainability**

## 1. Eligibility

Who: Researchers, PhD students and research managers from the nine EU-CONEXUS partner universities.

What: Conference participation involving contributions such as presentations, lectures, posters, session chairing, committee or panel membership, round table discussions, and consortium matchmaking events or research summer schools related to SmUCS topics.

- Events within or outside Europe are both eligible.
- Events held in the applicant's home country are also eligible.

Duration: Approximately 4 days (excluding travel time).

Mobilities in this call should be realised by 18 September 2026.

## 2. Evaluation and Selection Criteria

A Review Panel consisting of representatives from partner universities jointly evaluate the applications based on the clear criteria. The list of selected external experts will be presented to the Research Council. The selection is based on criteria guaranteeing a fair evaluation of the applications and does not give priority to any applicant depending on his/her nationality, race, religion or gender.

The evaluation will take place on a regular basis, every three months (1 February, 1 April and 1 June 2026). The following criteria will be considered for the selection of the mobility:

- Relevance to SmUCS Topics
- Overall Objectives and Expected Impact of the Participation
- Benefits for the Researcher's Career
- Partnerships, Collaborative Efforts, and Added Value for the EU-CONEXUS Consortium

A full description of the selection criteria has been validated by the research council and can be found here.

### 3. Minimum Score and Automatic Rejection

Applications with a final score below 12 will be automatically rejected.
If more than half of the review panel members recommend rejection, the application will also be automatically rejected.

### 4. Repeat Applicants

Applicants who have already received EU-CONEXUS mobility or conference funding before 12 months remain eligible to apply. However, in cases of equally ranked applications or limited funding, preference will be given to applicants who have not yet benefited from this funding scheme.

### 5. Applications to the Same Event

Applications to the same conference or event will be evaluated individually based on merit and not as group submissions. A maximum of two applications per university can be accepted for the same event.

### 6. Tie-breaking Rule

In the event of equal total scores, priority will be given to:

- Early-career researchers (e.g., PhD students, postdocs within 8 years of PhD award),
- Applicants who haven't received the funding before,
- Applicants from underrepresented research areas within EU-CONEXUS thematic priorities,
- Applicants of underrepresented gender identities in the respective field.

## 7. Knowledge Sharing Requirement

To maximize the impact of the mobility funding and benefit the wider EU-CONEXUS community, selected applicants will be invited for post-mobility knowledge sharing activities (e.g., Joint Research Institutes' Seminars) to disseminate insights, experiences, and outcomes gained during the mobility. Participation in the programme comes with the expectation to contribute to post-mobility knowledge sharing within the EU-CONEXUS community.

## 8. Appeals Procedure

If an applicant wishes to contest the outcome of the selection process, they may file a written appeal to the EU-CONEXUS Alliance Coordination Team within 5 working days of receiving the decision. The Committee will review the case and provide a final, reasoned decision within 15 working days.
